AR.
ملاحظة!

PL.

UWAGA! Mebel należy trwale zamocować do ściany, aby uniknąć ryzyka zwiędzania z przewróceniem się mebla. W paczce znajdują się elementy mocujące odpowiednie wyłącznie do ścian betonowych lub z pełnej cegły. Jeśli Twoja ściana wykonana jest z innego materiału lub nie masz pewności co do budowy tej ściany, skonsultuj się w kwestii montażu ze specjalistą.

D.

ACHTUNG! Um alle mit dem Umkippen des Möbels verbundenen Risiken auszuschließen, muss das Möbel fest an der Wand verankert werden. Die im Paket enthaltenen Beschläge für die Wandbefestigung sind ausschließlich für Wände aus Beton oder Vollziegeln geeignet. Sollten die heimischen Wände aus anderem Baumaterial bestehen oder sollte es Zweifel in Hinsicht auf dieses Baumaterial geben, bitte eine Fachkraft zu Rate ziehen.

FR.

ATTENTION! Ce meuble doit être fixé en permanence au mur pour éviter les risques de chute. L'ensemble comprend des moyens de fixation adaptés uniquement aux murs de béton ou de brique. Si votre mur est fait d'un matériau différent ou si vous êtes incertain quant à la construction du mur, consultez un spécialiste.

I.

ATTENZIONE! Il mobile deve essere permanentemente fissato alla parete per evitare i rischi derivanti da un ribaltamento del mobile. La confezione contiene solo elementi di fissaggio adatti per pareti in calcestruzzo o in laterizio pieno. Se la vostra parete è realizzata in materiale diverso o avete dubbi sulla costruzione della parete, consultare uno specialista per un montaggio corretto.

RU.

ПРИМЕЧАНИЕ! Эту мебель необходимо всегда прикреплять к стене, чтобы избежать рисков, связанных с переворотом мебели. В пакете находятся крепительные элементы, которые подходят исключительно к бетоновым стенам или из целого кирпича. Если стена изготовлена из другого материала или Вы не уверены относительно строения стены, проконсультируйтесь относительно монтажа со специалистом.

EN.

WARNING! To prevent this furniture from tripping over, fix it to the wall permanently. The package includes fastening elements only suitable for concrete or full-brick walls. If your wall is made of a different material or you are unsure as to the construction of the wall, please consult a specialist regarding installation.

SK.

POZOR! Nábytok musí byť trvalo pripavený k stene tak, aby sa zamedzilo riziku prevrátenia. V balíku sú nachádzajú upravené komponenty výlučne pre betónové steny alebo steny z plnej tehly. Ak je Vaša stena z iného materiálu alebo ak si nie ste istí, z čoho je stena vyhotovená, vyziaľajte si odbornú pomoc.

CZ.

POZOR! Nábytek je nutné pevně připevnit ke zdi, abychom se vyhnuli riziku spojenému s jeho převrhnutím. V balíku se nachází připevňující prvky vhodně výhradně do betonových zdí nebo zdí z plných cihel. Pokud jsou Vaše zdi zhotoveny z jiného materiálu nebo si nejste jejich konstrukcí jisti, konzultujte otázkou montáže se specialistou.

RO.

ATENȚIE! Mobila trebuie ancorată permanent în perete pentru a evita riscul de răstumare a mobiliei. Pachetul conține elementele de fixare potrivite numai pentru peretii din beton sau din cărămidă solidă. Dacă pereteli Dvs. este realizat dintr-un alt material sau nu sunteți sigur care este structura peretelui, consultați un specialist în privința montajului.

NL.

OPMERKING! De meubelen moeten permanent aan de muur worden bevestigd om te voorkomen dat de meubelen kantelen. Het pakket bevat bevestigingselementen die alleen geschikt zijn voor betonnen of massieve bakstenen muren. Als uw muur van een ander materiaal is gemaakt of als u niet zeker bent over de constructie van deze muur, raadpleeg dan een specialist voor de installatie.

TR.

DİKKAT! Devrilme riskini önlemek için mobilya duvara sabitlenmelidir. Pakette, sadece beton veya tam tuğla duvarlara uygun sabitleme elementleri bulunmaktadır. Eğer duvarınız başka bir malzemeden yapıldıysa veya duvar yapısından emin değilseniz, montaj konusunda bir uzmana danışınız.

يجب تثبيت الأثاث بإحكام إلى الحائط أو الجدار لتجنب خطر إنقلابه. تحتوي العلبة على مسامير التثبيت التي تناسب الجدران الخرسانية أو الطوب. إذا كان جدارك مصنوعاً من مادة مختلفة أو لم تكن متأكداً من مادة بناءه اسأل المختص عن كيفية التثبيت.

E.

¡ATENCIÓN! El mueble debe ser fijado permanentemente a la pared para evitar el riesgo relacionado con el vuelco del mueble. En el paquete hay elementos de fijación adecuados solo para paredes de hormigón o de ladrillo entero. Si su pared está hecha de otro material o no está seguro sobre la construcción de esta pared, consulte el montaje con un especialista.

CN.

注意！本家具需要固定在墙上以免倒塌。本包所含有的固定部件仅适用于混凝土墙及整砖墙，欲使用在其他墙体或不确定墙体时，请向专家询问安装方式。

HR.

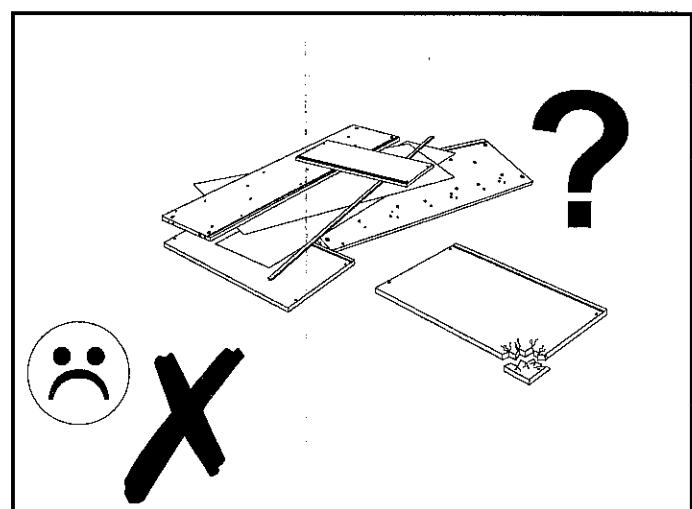

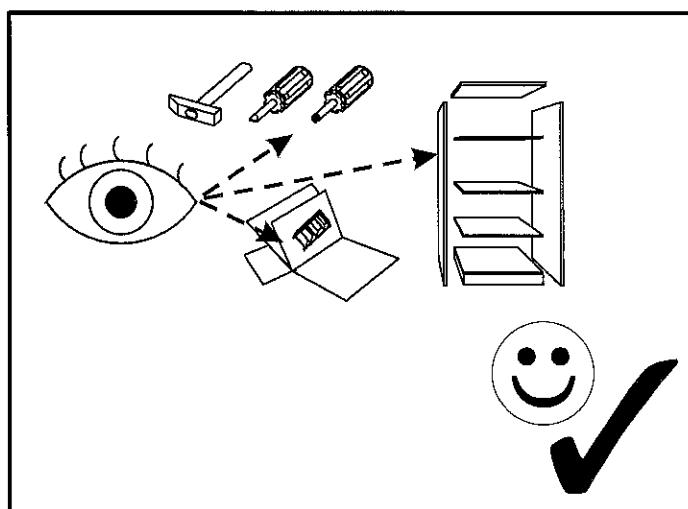

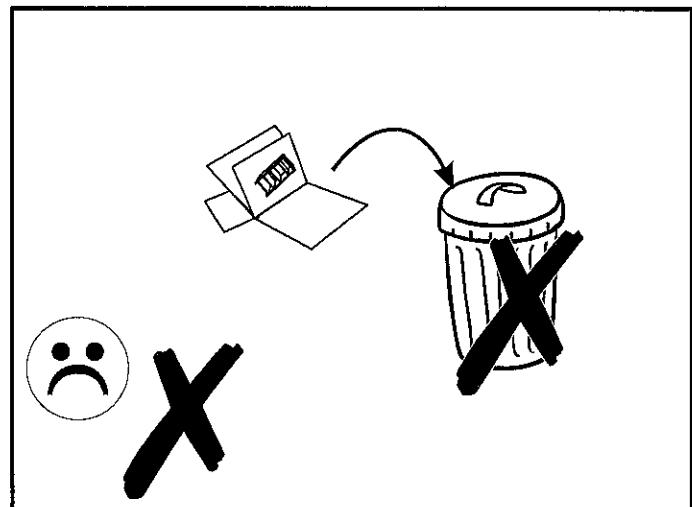

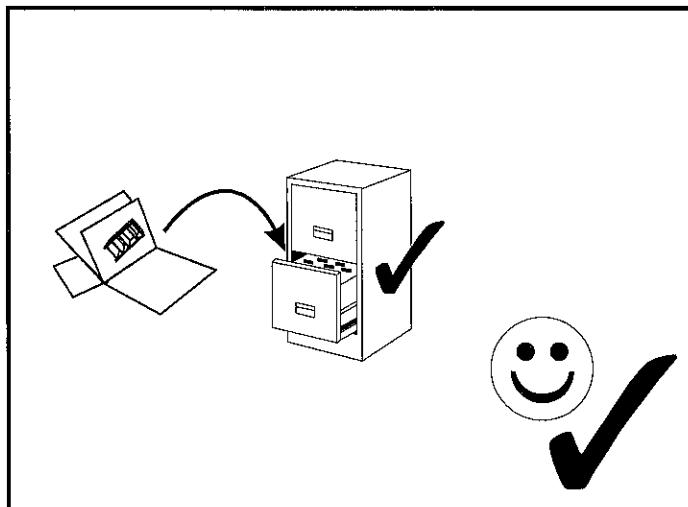

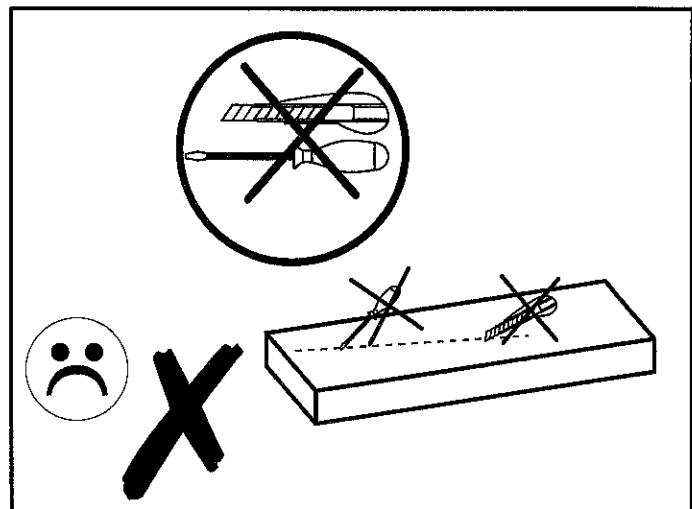

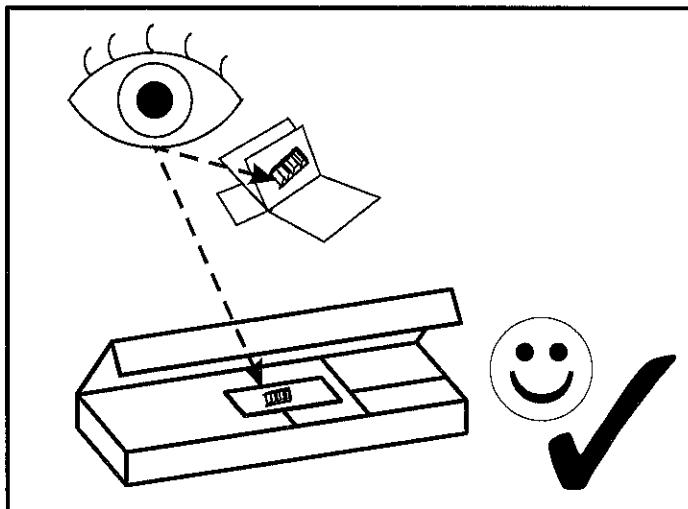

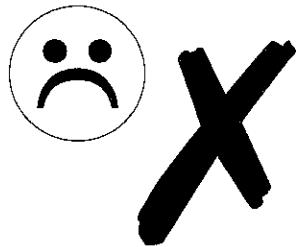

NAPOMENA! Namještaj mora biti trajno pričvršćen za zid, kako bi se izbjegao rizik od njegova prevrtanja. U paketu se nalaze elementi za prilčvršćivanje prikladni isključivo za betonske zidove ili punu ciglu. Ako je Vaš zid izrađen od drugog materijala ili niste sigurni od čega je napravljen Vaš zid, konzultirajte se sa stručnjakom u vezi sa montažom.

SLO.

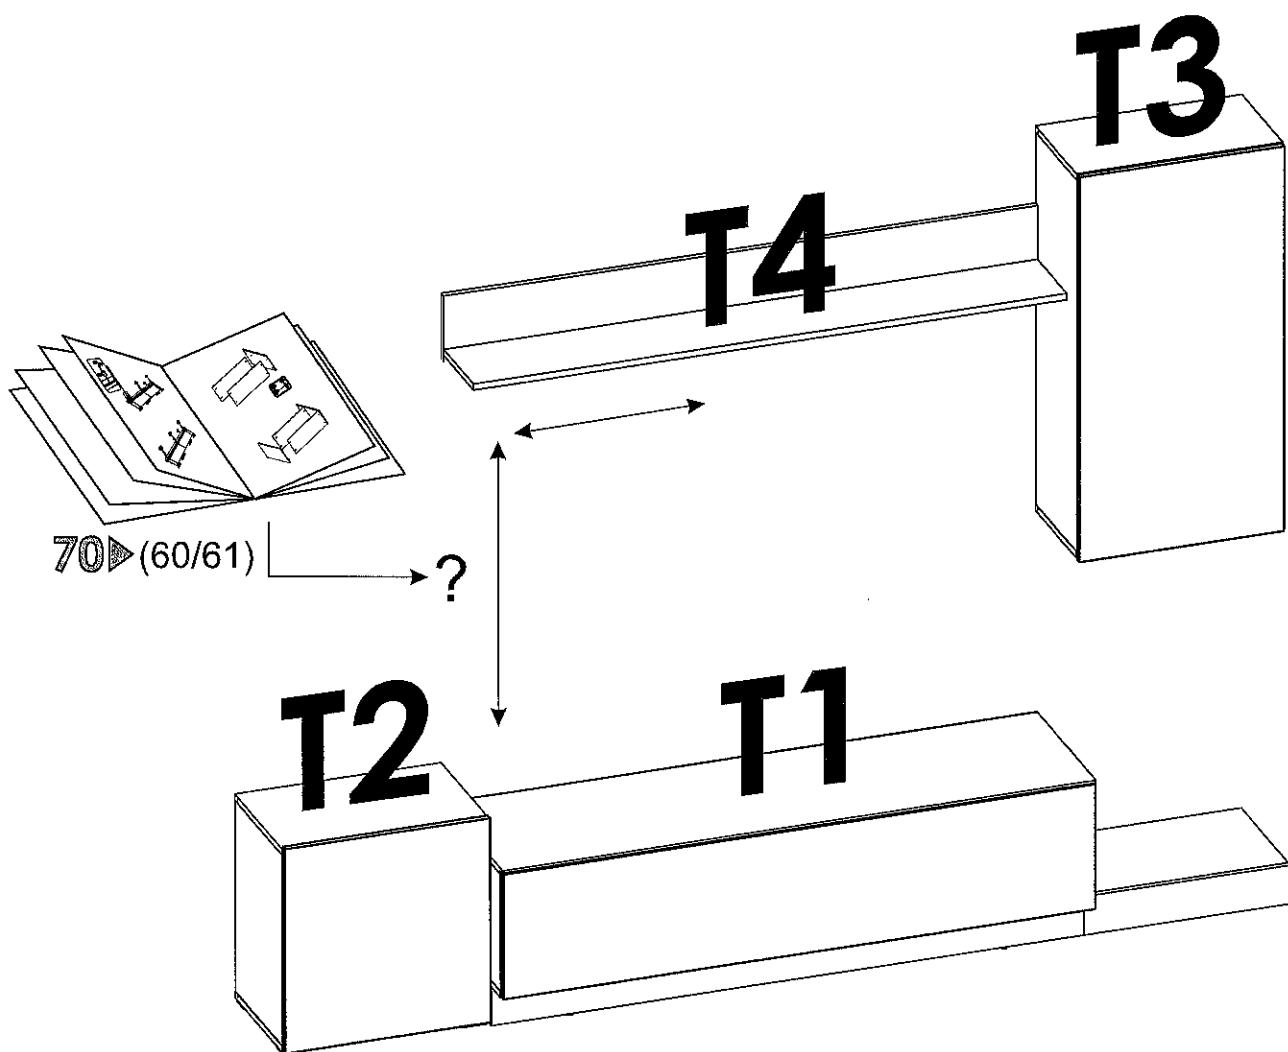

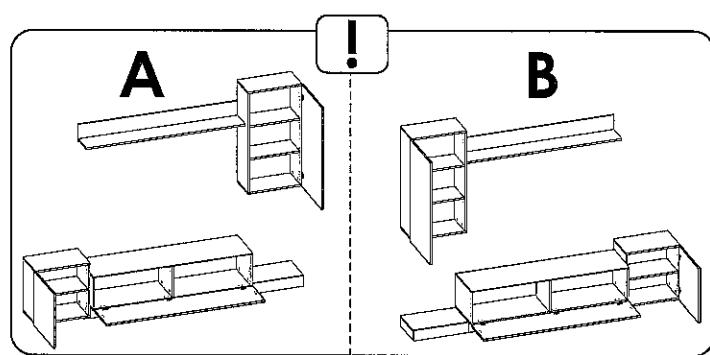

POZORI! Pohištvo trajno pritrďte na steno, da preprečite tveganje, da se prevrne. V paketu so pritrdični elementi, ki so ustrezni izključno za betonske stene in za stene iz polne opeke. Če je vaša stena izdelana iz drugih materialov ali niste gotovi glede konstrukcije stene, se o montaži posvetujte s strokovnjakom.

HU.

FIGYELEM! Rögzítse a bútorokat a falhoz, hogy elkerülje a bútor felborulásának kockázatát. A készletben kizárolag beton- vagy téglafalhoz használható kötőelemek találhatók. Ha a fal más anyagából készült, vagy ha nem tudja, milyen falak találhatók otthonában, forduljon szakemberhez.

Liebe Kundin,
lieber Kunde,
vielen Dank für Ihre Bestellung!
Gleichgültig, ob Sie ein aus Naturholz gefertigtes Möbelstück gekauft haben, eine Hochglanzfront oder eine matte Kunststofffront – jedes Möbelstück hat seine ganz speziellen Eigenschaften. Auch Holzbeschaffenheit und -struktur, wie zum Beispiel kleinere Äste bei Naturholzmöbeln, sind Teil der individuellen Ausstrahlung jedes einzelnen Möbelstücks.
Da Möbel aus Naturholz ständigen Klima- und Feuchtigkeitsschwankungen ausgesetzt sind, können vereinzelt Veränderungen in der Oberfläche auftreten wie z.B. Haarrisse oder Farbveränderungen. Generell nimmt im Laufe der Zeit die Helligkeit ab und die Farbsättigung zu – das Holz dunkelt nach. Die genannten Veränderungen sind bei einem Natur-Rohstoff wie Holz ein normaler Prozess.
Dieses Büchlein soll Ihnen ein paar Tipps zur Pflege Ihres Möbelstücks geben, damit Sie lange Freude daran haben können.

Grundsätzlich gilt:

- Keine heißen Gegenstände auf die Möbel stellen.
- Keine Kerzen direkt auf die Möbel stellen.
- Verschüttete Flüssigkeiten sofort aufwischen.
- In regelmäßigen Abständen den festen Sitz von Schrauben und Beschlägen kontrollieren.
- Der typische, aromatische Holzgeruch ist bei Naturholzmöbeln immer ein Qualitätsbeweis.
- Helle Stellen an den Ästen entstehen durch einen natürlichen Harzaustritt und können mit einem trockenen, fusselfreien Tuch abpoliert werden.
- Auch von anderen Holz-, Lack-, Leder- oder Polstermaterialien ist ein schwacher Eigengeruch am Anfang unvermeidbar. Diese Gerüche verschwinden nach einiger Zeit von allein. Wenn Sie dem nachhelfen wollen, lüften Sie in der Anfangszeit häufiger und/oder wischen Sie die Möbel leicht feucht mit Wasser aus, das mit ein wenig Essig versetzt ist.
- Bewahren Sie diese Hinweise gut auf.

Pflegehinweise für Möbel aus Plattenwerkstoffen

Verwenden Sie zur Pflege Ihres Möbels aus Plattenwerkstoffen am besten ein weiches, nicht fusselndes Tuch oder ein Ledertuch. Wischen Sie die Oberflächen leicht feucht ab.

Grundsätzlich gilt: Verwenden Sie bitte auf keinen Fall folgende Reinigungs- und Putzmittel:

- **Microfasertücher oder Schmutzradierer.** Diese enthalten häufig feine Schleifpartikel, die zu einem Zerkratzen der Oberflächen führen können;
- **scharfe chemische Substanzen** sowie **scheuernde Putz- oder Lösungsmittel.** Diese können die Oberflächen ebenfalls beschädigen;
- **Scheuerpulver, Stahlwolle oder Topfkratzer.** Sie zerstören die Oberfläche so stark, dass eine Aufarbeitung nicht mehr möglich ist;
- **Staubsauger.** Düsens und Bürsten können die Oberflächen zerkratzen;
- **Dampfreiniger.** Durch den hohen Druck und die Hitze, mit denen der Wasserdampf auf die Oberflächen trifft, können diese beschädigt werden oder sich sogar vom Untergrund ablösen.

(PL)

Druga Klientko,
Drogi Klienci,
Dziękujemy za zamówienie!
Niezależnie od tego, czy zakupiony przez Państwa mebel został wykonany z drewna litego, czy też posiada on front wykonany z płyt o wysokim połysku, lub też z płyt pokrytej matowym tworzywem sztucznym – każdy taki mebel ma swoje specjalne właściwości. Również właściwość i struktura drewna – jak np. niewielkie słoje w meblach z drewna naturalnego – nadają meblom indywidualnego charakteru. Ponieważ meble z drewna naturalnego są nieustannie wystawione na działanie wilgoci i czynników atmosferycznych, mogą na ich powierzchni sporadycznie pojawiać się zmiany, jak np. odbarwienia czy rysy. Z biegiem czasu może zmienić się nasycenie koloru i drewno może się zmieścić. Wspomniane zmiany zachodzące w wyglądzie produktów wykonanych z surowców naturalnych są zupełnie normalne. Niniejsza instrukcja zawiera cenne wskazówki dotyczące pielęgnacji mebli, aby jak najdłużej mogli Państwo cieszyć się z ich niezagądzanego wyglądu.

Podstawowe zasady:

- Nie stawiać na meblach gorących przedmiotów.
- Nie stawiać świeczek bezpośrednio na meblach.
- W przypadku rozlania wody natychmiast ją wytrzeć.
- Sprawdzać w regularnych odstępach czasu, czy śruby są dokręcone, a okucia dobrze przymocowane.
- Charakterystyczny, aromatyczny zapach drewna występujący w przypadku mebli wykonanych z drewna naturalnego jest oznaką wysokiej jakości produktu.
- Jasne miejsca na słojech powstają z powodu występowania żywicy – można je wypolerować suchą, nie pozostawiającą śladów szmatką.
- W przypadku materiału z innego rodzaju drewna lub skóry, produktów polakierowanych lub z obiciami, na początku również występuje charakterystyczny zapach „nowości“. Zapach ten znika po pewnym czasie użytkowania produktu. Jeśli chcecie Państwo pozbyć się tego zapachu szybciej, zalecamy wietrzyć często pomieszczenia i/lub przetrzeć meble szmatką delikatnie zwilżoną w wodzie z niewielką ilością octu.
- Prosimy zachować niniejsze wskazówki w bezpiecznym miejscu! Wskazówki dotyczące pielęgnacji mebli z płyt drewnopochodnych Do pielęgnacji mebli najlepiej używać miękkie, nie pozostawiające śladów szmatki. Powierzchnię należy przetrzeć lekko zwilżoną szmatką. Podstawowe zasady: Nigdy nie należy stosować poniższych środków/urządzeń czyszczących:
- szliczeczek z mikrofazy ani gąbek do usuwania brudu. Często zawierają drobniki ścieśni, które mogą porysować powierzchnię;
- ostrzych substancji chemicznych np. środków szorujących lub rozpuszczalników. Mogą one uszkodzić powierzchnię;
- proszków czyszczących, waty stalowej ani ostrych mydeł. Mogą one na stałe uszkodzić powierzchnię;
- odkurzacza. Szczotka odkurzacza może porysować powierzchnię;
- mydeł parowych. Wysokie ciśnienie i wilgoć mogą uszkodzić powierzchnię oraz spowodować rozklejenie materiału.

(NL)

Beste klant,
Hartelijk dank voor uw bestelling!
Het maakt niet uit of u een meubelstuk van natuurhout, een hoogglanzende voorkant of een matte plastic voorkant hebt gekocht – elk meubelstuk heeft zijn heel bijzondere eigenschappen. Ook de staat en structuur van het hout zoals kleinere takken bij natuurhouten meubelen maken deel uit van de individuele look van elk afzonderlijk meubelstuk. Omdat meubelen van natuurhout zijn blootgesteld aan permanente klimaatvochtigheidsschommelingen, kunnen er af en toe wijzigingen optreden van de bovenlaag zoals haarscheurtjes of kleurveranderingen. In het algemeen neemt na verloop van tijd de helderheid af en de kleurverzadiging toe – het hout wordt donkerder. De genoemde wijzigingen vormen bij een natuurlijke grondslag zoals hout een normaal proces.

Dit boekje moet u een paar tips geven over het onderhoud van uw meubelstuk, zodat u er lange tijd plezier aan kunt beleven.

In principe geldt:

- Plaats geen hete voorwerpen op de meubelen.
- Plaats geen kaarsen direct op de meubelen.
- Veeg gemorste vloeistoffen direct af.
- Controleer met regelmatige intervallen het stevige houvast van schroeven en beslag.
- De typische, aromatische houtgeur is steeds een kwaliteitsbewijs bij natuurhouten meubelen.
- Heldere plaatsen aan de takken ontstaan door een natuurlijk uittreden van hars en kunnen worden weggepolijst met een droge, plusjesvrige doek.
- Ook van andere houten, gelakte, lederen of gestofdeerde materialen is een zwakke eigen reuk bij het begin niet te vermijden. Deze geuren verdwijnen na enige tijd vanzelf. Als u wilt dat het sneller gaat, verlucht u in het begin vaker en/of veegt de meubelen lichtjes vochtig af met water, dat een beetje is aangelengd met azijn.
- Bewaar deze instructies goed.

Onderhoudsinstructies voor meubelen van plaatmateriaal

Gebruik voor de reiniging van uw meubel van plaatmateriaal het best een zachte, niet pluizige doek of een leren doek. Veeg de oppervlakten letwat vochtig af.

In principe geldt: Gebruik **zeker niet** volgende reinigings- en poetsmiddelen:

- **microvezeldoeken of vuilgommen.** Deze bevatten vaak fijne slijpdeeltjes die kunnen leiden tot krassen op de oppervlakken;
- **scherpe chemische substanties zoals schurende poets- of oplosmiddelen.** Deze kunnen de oppervlakken eveneens beschadigen;
- **schuurpoeder, staalwol of pannensponzen.** Ze vernielen het oppervlak zo erg dat een reparatie niet meer mogelijk is;
- **stofzuiger.** Mondstukken en borstels kunnen krassen op de oppervlakken veroorzaken;
- **stoomreiniger.** Door de hoge druk en de hitte, waarmee de stoom op de bovenlagen komt, kunnen deze worden beschadigd of zelfs loskomen van de ondergrond.

Dear customer,
 Thank you for your order!
 No matter if you bought a piece of furniture made from natural wood, a high-gloss front or a plastic front – every piece of furniture has unique characteristics. Even the texture and structure of wood, such as small knots in natural wood furniture, are part of the individual charisma of each piece of furniture. Since natural wood furniture are permanently exposed to climate and humidity fluctuations, changes to the surface may occur (e.g. hair cracks or changes in colour) in some cases. In general, brightness decreases and colour saturation increases in the course of time – the wood darkens.

The changes mentioned above are normal for natural raw materials such as wood. This booklet provides some care tips for your piece of furniture so that you can enjoy it for a long time.

The following applies in general:

- Don't place any hot objects on the furniture.
- Don't place candles directly on the furniture.
- Immediately wipe off any spilled liquids.
- Regularly check if the screws and fittings are tight.
- The typical, aromatic wooden odour is always a proof of quality for natural wood furniture.
- The natural emission of resin may produce bright spots on the knots which can be polished with a dry, lintfree cloth.
- Initially, a slight intrinsic odour is unavoidable for other wooden, paint, leather or upholstery materials too. These odours automatically disappear after a while. If you want to speed up this process, ventilate more often at the beginning and/or wipe out the furniture with a slightly damp cloth which was soaked in water mixed with a small amount of vinegar.
- Keep these notes in a safe place.

Care notes for furniture made of panel materials

We recommend using a soft, lint-free cloth or a shammy for conditioning your piece of furniture made of panel materials. Wipe off the surfaces with a slightly damp cloth or shammy.

The following applies in general:

Please don't use the following detergents or cleaning agents at all:

- **microfibre cloths or dirt erasers.** They often contain fine abrasive particles which can cause scratches on the surfaces;
- **aggressive chemical substances as well as abrasive cleaning agents or solvents.** They may damage the surfaces too;
- **scouring powder, steel wool or scouring pads.** They destroy the surface so badly that reconditioning is impossible;
- **vacuum cleaners.** The nozzles and brushes can cause scratches on the surfaces;
- **steam cleaners.** The surfaces may be damaged or separated from the ground due to the high pressure and heat of the water vapour.

Your product development team

Gentili clienti,
 sentiti ringraziamenti per il vostro ordine! A prescindere che abbiate scelto un mobile realizzato in legno naturale, un fronte lucido o un fronte di materiale plastico opaco – ogni esemplare la sua particolarità. Anche le caratteristiche e la struttura del legno, quali ad esempio rami minori nei mobili di legno naturale, sono parte del fascino individuale di ogni singolo mobile.

Dato che i mobili in legno naturale sono esposti al continuo variare del clima e dell'umidità, è probabile che in superficie insorgano mutamenti quali crepe capillari o cambiamenti di colore. Generalmente con passar del tempo diminuisce la chiarezza e aumenta la saturazione del colore – il legno si scurisce.

I citati mutamenti sono un normale processo dei materiali naturali, quali appunto il legno.

Il presente libretto intende darvi alcuni suggerimenti sulla cura del vostro mobile, affinché vi procuri lunghe soddisfazioni.

Sostanzialmente vale:

- Non poggiare oggetti roventi sui mobili.
- Non poggiare candele a diretto contatto dei mobili.
- Asciugare subito i liquidi sversati.
- Ad intervalli periodici controllare se viti e cerniere sono salde.
- Il caratteristico odore fragrante è sempre una prova di qualità dei mobili in legno naturale.
- Le macchie chiare sui rami si formano per via della naturale fuoriuscita di resina, e sono levigabili con un panno asciutto che non lascia peli.
- Anche trattandosi di altri materiali lignei, di vernice, pelle o imbottiti, all'inizio è inevitabile un leggero odore caratteristico. Dopo qualche tempo però, questi odori svaniscono da sé. Potete aiutare a farli volatilizzare in minor tempo cambiando più spesso aria all'inizio e/o passando sui mobili un panno umido d'acqua con qualche goccia d'aceto.
- Conservare bene le presenti istruzioni.

Istruzioni sulla cura dei mobili in materiali pannellati

Per la cura dei mobili in materiali pannellati si consiglia di usare un panno morbido, che non lascia peli, o un panno di pelle. Passare il panno leggermente umido sulle superfici.

Sostanzialmente vale: In nessun caso utilizzare i seguenti detergenti e prodotti per la pulizia:

- **panni in microfibra o spugne a tampone.** Questi prodotti contengono spesso fini particelle abrasive, che possono provocare graffiature sui mobili;
- **forti sostanze chimiche nonché detergenti o solventi abrasivi.** Anche questi prodotti possono aggredire le superfici.
- **polvere abrasiva, paglietta d'acciaio o spugne abrasive.** Rovinerebbero la superficie in modo tale che non sarebbe più possibile ripararle;
- **aspirapolvere.** Bocchette e spazzole possono sgraffiare le superfici;
- **pulitrice a vapore.** Per via dell'elevata pressione e calore con cui il vapore colpisce le superfici, esse rischiano di deteriorarsi o addirittura staccarsi dalla sottostruzione.

Area Sviluppo prodotti

Chère cliente,
cher client,
 Merci pour votre commande !

Peu importe que vous ayez acheté un meuble fabriqué en bois naturel, un face haute brillance ou une face en plastique mat – chaque meuble a ses propriétés spécifiques. Même les propriétés et la structure du bois, comme par exemple les petits noeuds sur des meubles en bois naturel, font partie de l'aspect de chaque meuble.

Comme le meuble en bois naturel est soumis aux variations permanentes du climat et de l'humidité, il se peut que quelques modifications surviennent sur la surface, comme par exemple de fines fissures ou des décolorations. En règle générale, au cours du temps, la clarté du bois diminue et son intensité de couleur augmente – le bois devient foncé. Les modifications susnommées sont un processus normal des matières naturelles comme le bois.

Ce petit livret vous donne quelques astuces sur l'entretien de votre meuble pour que vous puissiez en profiter longtemps.

En règle générale :

Ne pas poser d'objets chauds sur le meuble.

Ne pas poser de bougies directement sur le meuble.

Essuyer immédiatement les liquides renversés.

À intervalles réguliers, contrôler que les vis et les ferrures sont bien en place.

L'odeur aromatique typique du bois est toujours une preuve de qualité des meubles en bois naturel.

Les endroits clairs sur les noeuds se produisent par une sécrétion naturelle de résine qui s'élimine avec un chiffon sec non pelucheux.

Les autres matériaux comme le bois, la peinture, le cuir ou le rembourrage dégagent inévitablement une légère odeur. Ces odeurs disparaissent d'elles-mêmes avec le temps. Si vous souhaitez qu'elles disparaissent plus vite, au début, aérez plus souvent et essuyez les meubles avec un chiffon légèrement imbibé d'eau mélangée avec un peu de vinaigre

Conservez bien cette notice.

Consignes de soin pour les meubles avec des plaques en dérivé du bois
 Pour l'entretien de votre meuble en plaques en dérivé du bois, utilisez de préférence un chiffon doux non pelucheux ou une peau de chamois. Essuyez la surface légèrement humide.

En règle générale : Veuillez n'utiliser en aucun cas les détergents suivants : Chiffons à microfibres ou gomme à saleté. Ils contiennent souvent de fine particules abrasives qui peuvent rayer les surfaces ;

substances chimiques agressives ainsi que des détergents abrasifs. Ceux-ci peuvent également endommager les surfaces ;

Consignes de soin pour les meubles avec des plaques en dérivé du bois
 Pour l'entretien de votre meuble en plaques en dérivé du bois, utilisez de préférence un chiffon doux non pelucheux ou une peau de chamois. Essuyez la surface légèrement humide.

En règle générale : Veuillez n'utiliser en aucun cas les détergents suivants : Chiffons à microfibres ou gomme à saleté. Ils contiennent souvent de fine particules abrasives qui peuvent rayer les surfaces ;

substances chimiques agressives ainsi que des détergents abrasifs. Ceux-ci peuvent également endommager les surfaces ;

poudre à récurer, paille de fer ou éponge grattant. Elles détrentent la surface si profondément qu'il n'est plus possible de la retraiter ;

aspirateur. Les buses et les brosses peuvent rayer la surface ;

nettoyeur à vapeur. De fait de la haute pression et de la chaleur avec lesquelles la vapeur d'eau sort sur la surface, elles peuvent être endommagées et même décoller la base.

Votre service de développement de produits

Sevgili Müşterimiz,

Siparişiniz İçin çok teşekkür ederiz!
Doğal ahşap malzemeden yapılmış bir mobilya aldiğinizda, parlak veya mat plastik kaplama da olsa – her mobilya parçasının kendine özgü özellikleri vardır. Ayrıca, doğal ahşap mobilyaların küçük parçaları gibi ahşap dokusu ve yapısı, mobilyanın her ayrı parçasının ayrı çekiciliğinin bir parçasıdır.

Mobilya, doğal ahşabın kalıcı hava ve nem dalgalarına maruz kaldığında, nadir de olsa çatlak veya renk atması gibi yüzey değişiklikleri meydana gelmektedir. Genellikle parlaklık ve ahşabı koyu rengini sağlayan renk doyumu zaman içinde azalır.

Bu değişiklikler ahşap gibi doğal hammaddeerde normal bir süreçtir. Bu kitapçık, mobilyanızı uzun yıllar kullanmak için bir takım bakım ipuçları verecektir.

Temel olarak:

Mobilyanın üzerine sıcak nesneler koymayın.

Mumları mobilyanın üzerine doğrudan koymayın.

Dökülen sıvıları derhal bezle silin.

Vidaların ve bağlantı elemanlarının sıkı olup olmadıklarını periyodik olarak kontrol edin.

Doğal ahşap mobilyada ahşabın tipik, aromatik kokusu her zaman kalitesinin bir kanıtıdır.

Doğal reçineden kaynaklanan parlak noktalar, kuru, tiftiksiz bir bez ile parlatılabilir.

Ayrıca diğer ahşap, lake, deri veya dösemek kumaş malzemeler başlangıçta giderilemeyen hafif bir koku bırakabilir.

Bu kokular bir zaman sonra kendiliğinden kaybolacaktır. Bu süreci hızlandırmak isterseniz, başlangıçta ortamı daha sık havalandırın ve/veya mobilyayı biraz sırke kattığınız su ile ıslattığınız bir bez ile silin.

Bu talimatları dikkatlice izleyin.

Sunta mobilya malzemelerinin bakımı

Sunta malzemeden yapılmış mobilyanızın bakımı için, yumuşak, tiftiksiz bir bez veya güderi kullanı. Hafif nemli bir bez ile yüzeyi temizleyin.

Temel olarak: Lütfen aşağıdaki temizlik araçlarından ve maddelerinden kaçının:

mikro fiber kumaş veya bez. Bunlar yüzeyin çizilmesine neden olabilecek aşındırıcı parçalar içerir;

keskin ve aşındırıcı temizlik kimyasalları veya çözücülerscharfe. Bunlar da yüzeye hasar verebilir;

ovma tozu, çelik yünü veya ovma süngeri. Yüzeyi, gidermeyi imkansız hale getirecek derecede güçlü bir şekilde bozar;

elektrik süpürgesi. Hortum ağızı ve fırçalar yüzeyi çizebilir;

buharlı temizleyici. Suyun yüzey üzerine buhar olarak uygulanmasını sağlayan yüksek basınç ve ısı ile, mobilya hasar görebilir veya ayrılabilir.

Уважаемый покупатель!

Благодарим вас за сделанный заказ! Что бы вы ни приобрели – мебель из натурального дерева, глянцевую или матовую панель из пластика – у каждой вещи есть свои, особенные свойства. Свойства и структура древесины, например, следы сучьев на мебели из натурального дерева, являются частью индивидуального оформления каждого предмета мебели.

Поскольку мебель из натурального дерева подвергается постоянным изменениям климата и уровня влажности, ее поверхность со временем местами может измениться: могут появиться тонкие трещины, может измениться цвет. Обычно дерево постепенно темнеет.

Эти изменения являются обычным явлением, когда речь идет о натуральном дереве.

В этой брошюре приведено несколько советов относительно ухода за вашей мебелью, чтобы она прослужила вам как можно дольше.

Основные правила:

Не ставьте на мебель горячие предметы.

Не ставьте непосредственно на мебель горящие свечи.

Пролитую жидкость вытирайте сразу же.

Регулярно проверяйте прочность посадки винтов и обшивки.

Обратите внимание, что запах дерева всегда является признаком качества мебели из натуральной древесины. Там, где раньше были сучья, появляются светлые места из-за естественного выхода смолы. Их можно отполировать с помощью сухой ткани без ворса.

От компонентов мебели, изготовленных из дерева и кожи, покрытых лаком, поначалу также неминуемо будет исходить запах. Эти запахи исчезнут сами через некоторое время. Если вы хотите поскорее избавиться от них, чаще проветривайте помещение и протирайте мебель тряпкой, чуть смоченной водой с небольшим количеством уксуса.

Сохраните эти указания.

Указания по уходу за мебелью из ДСП и ДВП

Для ухода за мебелью из ДСП и ДВП используйте мягкую ткань без ворса или замшу. Протирайте поверхности слегка смоченной тканью.

Основные правила: Пожалуйста, ни в коем случае не используйте следующие чистящие средства:

микрофибровые салфетки или пятновыводители. Зачастую они содержат мелкие частицы абразивного вещества, которые могут поцарапать поверхность;

остро действующие химикаты и чистящие средства/растворители с абразивным эффектом. Они также могут повредить поверхность;

чистящий порошок, стальную пуштаку или скребок. Они разрушают поверхность настолько, что она уже не подлежит восстановлению;

пылесос. Сопло и щетина могут поцарапать поверхность;

пароочиститель. Пар, попадающий на поверхность под высоким давлением и с высокой температурой, может повредить ее и даже вызвать расслоение древесины.

С наилучшими пожеланиями,
коллектив разработчиков

Dragi clienti,

vă mulțumim pentru comanda dvs.!

Indiferent dacă ați achiziționat o piesă de mobilier confectionată din lemn natural, o fațetă cu luciu intens sau o fațetă mată din material plastic – fiecare piesă de mobilier are caracteristici complet speciale. Atât natura căt și structura lemnului, cum ar fi de exemplu miciile noduri la mobila din lemn natural, constituie parte a specificului individual pentru fiecare piesă de mobilier.

Deoarece mobila din lemn natural este expusă variațiilor persistente de climă și umiditate, la nivelul suprafeței pot să apară modificări sporadice, cum ar fi de exemplu microtisuri sau modificări ale culorii. De regulă, în decursul timpului se reduce strălucirea, iar saturarea culorilor crește – lemnul se închide laculoare. Modificările menționate reprezintă un proces normal în cazul materialelor naturale, precum lemnul.

Această broșură vă oferă câteva sfaturi pentru întreținerea mobilierului dvs., astfel încât să vă bucurați de el timp îndelungat.

Reguli general valabile:

Nu așezați pe mobilă obiecte fierbinți.

Nu amplasați lumânări direct pe mobilier.

Ștergeți imediat lichidele vârsate.

Verificați la intervale regulate poziția fermă a șuruburilor și a feroneriei.

Mirosul tipic, aromat al mobilierului din lemn natural reprezintă întotdeauna o garanție a calității.

Locurile de culoare deschisă de la noduri apar printre cele mai naturale și răsunătoare la suprafață și pot fi lustruite cu o cărpă uscată, care nu lasă scame.

Și în cazul altor materiale din lemn, piele, lăcuite sau tapitate persistă în mod inevitabil la început un miros propriu șos. Aceste mirosuri dispar în timp de la sine. Dacă doriti să contribuiți la acest lucru, aerisiti mai des la început și/sau ștergeți mobila cu puțină apă și oțet.

Păstrați aceste instrucțiuni în condiții optime.

Indicații pentru întreținerea mobilierului din materiale fibrolemnăse

Pentru întreținerea mobilierului din materiale fibrolemnăse, vă recomandăm să utilizați în mod optim o cărpă moalecare nu lasă scame sau o bucată de piele tăbăcătă de șters. Ștergeți suprafața cu puțină apă.

Reguli general valabile: Vă rugăm să nu utilizați în niciun caz următoarele substanțe sau mijloace de curățat:

cârpe din microfibre sau bureți de curățat. Acestea conțin adesea mici particule abrazive care pot zgâria suprafețele;

substanțe chimice corosive, precum și solventi sau substanțe de curățat abrazive. Și acestea pot să deterioreze suprafețele;

praf de curățat, bureți din fibră de otel sau răzuitoare. Acestea pot să deterioreze suprafețele în așa măsură, încât nu mai este posibilă recondiționarea lor;

aspiratoare. Duzele și periile pot zgâria suprafețele;

curățătoare cu abur. Suprafețele expuse la presiunea și temperatura excesivă a aburului, pot să se deterioreze sau chiar se pot disloca de pe suportul de bază.

Departamentul dvs. de creație produse

**Vážená zákaznice,
vážený zákazníku,**
děkujeme za Vaši objednávku!
Jedno, zda jste zakoupili nábytek
zhotovený z přírodního dřeva, čelo s
vysokým leskem nebo matné plastové
čelo – každý kus nábytku má své zcela
speciální vlastnosti. Také kvalita a struktura
dřeva, jako například menší suky
u nábytku z přírodního dřeva, jsou součástí
individuálního vyzárovnání každého
jednotlivého kusu nábytku.
Protože je nábytek z přírodního dřeva
vystaven neustálým změnám klimatu a
vlhkosti, mohou se ojediněle vyskytnout
změny v povrchu jako např. vlasové trhliny
nebo změny barev. Světlost všeobecně
během času klesá a sytost barev
se zvyšuje – dřevo tmavne.
Uvedené změny jsou u přírodního materiálu
jako dřevo normální proces.
Tato knížečka Vám poskytne několik
tipů pro péči o Váš nábytek, abyste se z
něho mohli radovat dlouhou dobu.

Zásadně platí:
Nepokládejte na nábytek horké předměty.
Nestavte svíčky přímo na nábytek.
Rozlité kapaliny ihned utřete.
V pravidelných intervalech kontrolujte,
zda jsou pevně utažené šrouby a kování.
Typická, aromatická vůně dřeva je u
nábytku z přírodního dřeva vždy důkazem
kvality.
Světlá místa u suků vznikají přirozeným
únikem pryskyřice a mohou se
přeleštít suchým hadříkem, který nepouští
vlákna.
Také u jiných dřevěných, lakovaných,
kožených nebo čalouněných materiálů je
slabá/vůně/zápach na začátku
nevyhnutelná. Tyto vůně/pachy zmizí po
nějaké době samy. Pokud tomu
budecchtit napomoci, větrejte na
začátku častěji a/nebo nábytek lehce
otřete vodou s trohou octa. Tento pokyny
dobře uschovějte.

Pokyny pro péči o nábytek z deskových materiálů
Při péči o Váš nábytek z deskových materiálů použijte nejlépe měkký hadřík, který nepouští vlákna, nebo koženýhadřík. Povrch otřete navlhčeným hadříkem.
Zásadně platí: V žádném případě nepoužívejte
následující čistící prostředky:
hadříky s mikrovlnkou nebo **samočisticí houbičky**. Často obsahují jemné abrazivní částice, které mohou vést k poškrábání povrchů;
sílne chemické substance a abrazivní čistici prostředky a rozpouštědla. Rovněž mohou poškodit povrchy;
abrazivní prášek, ocelovou vlnu nebo **drátenuky**. Zničí povrch tak, že jeho oprava již nebude možná;
vysavač. Trysky a kartáče mohou poškrábat povrchy;

parní čističe. Povrchy může poškodit vysoký tlak a žár vodní páry nebo dokonce může dojít k jejich uvolnění od podkladu.

Vaše oddělení vývoje nových výrobků

Vážení zákazníci,
vděká za vašu objednávku!
Bez ohledu na to, či ste si zakoupili nábytok,
vyrobený z přírodního dřeva s
vysokoleskými čelnými plochami alebo
s matnými čelnými plochami z plastov
– každý nábytek má svoje celkově specifické
vlastnosti. A) kvalita a struktura
dřeva, ako napr. menší hrnce pri nábytku
z prírodného dřeva, sú súčasťou individuálneho
vyzárovania každého kusunábytku.

Kedže je nábytek z přírodního dřeva
vystavený neustálým výkynom klímy a
vlhkosti, môžu sa ojedinele vyskytnúť
zmene v jeho povrchovej ploche, ako
napr. vlasové trhliny a zmene barev. Vo
všeobecnosti sa s časom zmenšuje
svetlosť povrchu a pribúda nasýtosť farby –
drevo tmavne.
Uvedené zmene sú u prírodného materiálu,
ako je dřevo, normálnym procesom.
Táto priručka vám ponúka niekoľko rád
ohľadne ošetrovania väšho nábytku,
aby ste sa z neho mohli dôľho tešiť.

Zásadne platí:

Neuložte na nábytok žiadne horúce
predmety.
Nepostavte priamo na nábytok žiadne
sviečky.
Vyliate kvapaliny ihned utrite.
V pravidelných časových intervaloch
skontrolujte pevné uloženie skrutiek a
kovania.

Typický, aromatický pach dřeva je při
nábytku z přírodního dřeva vždy dokazom kvality.
Svetlé miesta na hrncích vznikajú prirodzeným
vystupováním živice a dajú
sa odstrániť so suchou utierkou bez
vlákien.

Zo začiatku sa nedá zabrániť ani slabému
charakteristickému pachu iných
drevených, náterových, kožených
alebo čalúnnických materiálov. Tieto
pachy sa po určitej čase samočinne
stratia. Ak tento proces chcete urýchliť,
velrajte spodiatku častejšie a/alebo
utierajte nábytok s utierkou, zlžahko
navlhčenou vo vode s trochou octu.

Dobre si odložte tieto upozornenia.

Pokyny pre ošetrovanie prírodného/nalakovanejného nábytku z prírodného dřeva

Povrch sa dá najlepšie vyčistiť so zlžahka
navlhčenou utierkou.

Pozor: Dražidlivé alebo rozpuštadlá
obsahujúce čistiace alebo leštiače
prostriedky sa **nesmú používať**.

Pokyny pre ošetrovanie nábytku z drevovláknitých dosiek

Na ošetrovanie väšho nábytku z drevovláknitých
dosiek je ideálne použiť
mäkkú utierku bez vlákien alebo koženú
utierku. Utierajte povrhy so zlžahka navlhčenou
utierkou.

Zásadne platí: Nepoužívajte v žiadnom
priípade nasledujúce čistiace alebo
leštiače prostriedky:

mikrovlnkité utierky alebo **čistilče**.
Tiero často obsahujú brúsne časticie,
ktoré môžu viesť k doškriabaniu povrchov;
ostre chemické látky ako aj drhnúce
čistiace alebo leštiače prostriedky.

Tieto môžu povrch takliež poškodiť;
Pokyny pre ošetrovanie nábytku z drevovláknitých dosiek

Na ošetrovanie väšho nábytku z drevovláknitých
dosiek je ideálne použiť
mäkkú utierku bez vlákien alebo koženú
utierku. Utierajte povrhy so zlžahka navlhčenou
utierkou.

Zásadne platí: Nepoužívajte v žiadnom
priípade nasledujúce čistiace alebo
leštiače prostriedky:

mikrovlnkité utierky alebo **čistilče**.
Tiero často obsahujú brúsne časticie,
ktoré môžu viesť k doškriabaniu povrhov;
ostre chemické látky ako aj drhnúce
čistiace alebo leštiače prostriedky.

Tieto môžu povrh takliež poškodiť;
prášky na drhnutie, ocelovú vlnu
alebo **škrabky na hrnce**. Zničia povrh
natoliko, že už viac nie je možná
jeho oprava;
vysávač. Hubice a kefy môžu povrh
doškriabat;
parné čističe. Vysokým tlakom a teplotou,
s akým vodná para narází na
povrh, sa tieto môžu poškodiť alebo
dokonca odlepíť od podkladu.

Váš vývoj výrobku

Kedves Vásárlónk!

Köszönjük a megrendelését!
Függetlenül attól, hogy természetes
fából vagy más anyagból készült fényes
vagy matt felületű bútor vásárolt,
minden egyes bútor egyedi jellemzőkkel
rendelkezik. A faanyagok és
szerkezetüknek egyedi jellemzői, pl. a
kisebb ágak miatt göcsök a természetes
faanyagból készült bútoroknál minden
egyes bútornak egyedi megjelenést
kölcsönöznek.

A természetes fából készült bútor folyamatosan
ki van téve a hőmérséklet-
és páratartalom-változásoknak,
Igy annak felületén egyedi változások
jelentkezhetnek, pl. hajszálrepedések
és színváltozások. Általánosságban
megállapíthatuk, hogy a világosság és
a színtelítettség az idővel csökken - abútor
sötétebbé válik.

Ezek a változások a természetes alapanyagok,
pl. a fa használata esetén
teljesen normálisak.
A kézikönyvecske célja, hogy pár ötletet
adjon a bútor ápolásához, hogy
annak használatát hosszan élvezhesse.

Általános utasítások:

Ne tegyen forró tárgyat a bútorra.
Ne tegyen gyertyát közvetlenül a bútorra.
A kifolyt folyadékot azonnal törölje fel.
Rendszeres időközönként ellenőrizze
a csavarok feszességét és az alátéteket.
A természetes fából készült bútorok
aromas fa illata a minőség jele.

A göcsöknek található világos foltokat
a természetes gyantaáramlás okozza,
amit egy száraz, szószmentes ronggyal
törölhet le és polírozhat.

A fa-, a lakk-, a bőr- és a kárpítanyagok
a kezdetben gyengén illatanyagokat
bocsátanak ki. Ezen illatanyagok
kibocsátása egy idő után magától
megszűnik. Ha ezt szeretne felgyorsítani,
akkor a bútor használatának
elején szellőztessen gyakrabban és/
vagy törölje le a bútor egy kevés vízzel,
amibe egy kicsi cetet is rak.

Örizze meg az útmutatót, hogy azt későbbis
használhassa referenciaként.

Ápolási tanácsok bútorlapból készült bútorokhoz

A bútorlapból készült bútorokhoz a legjobb, ha
puha, nem rojtosodó rongyt
vagy bőrkendőt használ. Törölje le a
felületeket kissé nedves ronggyal.

Általános utasítások: Semmilyen
körülmenyezék
között se használja a következő
tisztítószereket:

mikroszálas kendő vagy **szennytörölő-**
radír. Ezek gyakran apró csiszolószemcséket
is tartalmaznak, amelyek
a felületet összekarcolhatnák;
erős vegyszerek, pl. **súrolószert**
tartalmazó tisztítószerek vagy **oldószerek**.
Ezek ugyanúgy tönkre teheti
a felületet;

súrolópor, **fémszálas**
dörzsölőanyag vagy **edény súrolószer**.
Ezek annyira tönkre teszik a
felületet, hogy annak javítása nem
lehetséges;

porszívó. A cső és a kefák a
felületet összekarcolhatják;
góztisztító. A magas nyomás és a hő
miatt a góz a felületen keresztül behatolhat
az anyagba, ami sérelmeket
okoz, sőt akár a felület le is válhát.

A termékfejlesztők
